

Zen

The sculpted backrest of the Zen chair marks it out as a seriously comfortable chair. The two alternative sizes of backrest offer equal levels of relaxation and support. The backrest grips the contours of the body and help to focus attention.

High Back
shown with adjustable headrest, polished base, and height and foldaway adjustable arms
Model: EZ5360/HR/PMP/SS/2C

Medium Back
shown with height and depth adjustable arms
Model: EZ3333/SS

Identity Code	First Number		Second Number		Third Number		Fourth Number	
	Backrests		Mechanism		Armrests		Seat Size	
EZ	High Back	5	3-lever Independent Seat and Back Tilt Mechanism	3	No Armrests	0	Standard	0
					2D HA Armrests	2		
	Medium Size	3			3D MF Armrests	3	Shorter	3
					Fold-Away Arms	6		

Zen Highlights

A choice of two height-adjustable backrests and two seat sizes, with an optional sliding seat, make the chair suitable for the majority of users

The three-lever independent seat and backrest tilt mechanism encourages healthy posture and dynamic sitting

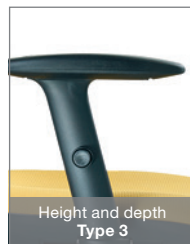

The back rake tension control allows the spring tension of the backrest to be adjusted for heavier or lighter users

The upholstered backrest and sculpted chair shape invoke a more homely environment and add colour and texture to any scheme

Options

	Code
Inflatable lumbar pump to improve lower back support	/PMP
Smart polished aluminium base	/AL2
Two-colour upholstery to harmonise with office environments	/2C
Sliding seat for users with longer limbs	/SS

A choice of three adjustable armrests:

Zen Ergonomic Task Chair measurements in mm.

	Med	High
Overall height of chair from ground	900-1095	1090-1285
