

ASSEMBLY INSTRUCTIONS: Chiropod

Step One:

Carefully remove the items from the box. Place the 5-Star Base on the floor.

Step Two:

Take the Gas Stem, which can be found packaged securely in the protective box fitted to the underside of the Chair Body and insert into the central hole in the 5-Star Base (as shown in the image to the left). The narrowest part of the Gas Stem must point upwards.

Step Three:

Carefully place the Chair Body onto the Gas Stem, fitting the narrow part of the Gas Stem into the hole in the underside of the Chair Body. Push down firmly to secure.

Step Four:

If an Adjustable Headrest is included, place the Headrest into the holes clearly visible on the top of the chair back and push down firmly to secure.

Step Five:

Use the levers on the chair mechanism (found on the underside of the Chair Body) and the ratchet in the chair back to adjust to personal settings.
